

Chatbots, Serverless & AI on Azure

ChatBots

Chatting is familiar,
even for people who
are not tech savvy

Azure Bot Services & Bot Framework

- ✦ Easily connect to multiple channels
- ✦ Write one code for many platforms
- ✦ Simplify identity and state management

Serverless

There is a server,
you just don't
care about it.

Azure Functions

- ◆ Pay per execution
- ◆ Scale indefinitely

AI as a service

Well tested and
accessible AI/ML
algorithms

Azure Cognitive Services

- ✦ Pay per execution
- ✦ Battle tested algorithms
- ✦ Zero or little ML knowledge
